Subject: Confidentiality Request for Application with FCC ID: 2AHVPSB400M1A

Pursuant to FCC 47 CRF 0.457(d) and 0.459, we request that the following parts of the subject FCC application are held confidential:

- Block Diagrams
- Schematics
- Parts List – Bill of Material (BOM)
- Theory of Operation

Radio Solutions, Inc. have spent substantial effort in developing this product with a number of industry-first, patent pending features. The above materials contain proprietary and confidential information not customarily released or made accessible to the public. The public disclosure of these materials would provide unjustified benefits to its competitors in the market.

We hereby request that the confidential exhibits listed above are permanently withheld from public review.

Sincerely,

Admir Surkovic
CEO, CTO
