Front

**Left Side**

*Note: Liquid-tight flex conduit fitting is included*

**Right Side**

*Note: A watertight cord grip feed-through fitting is provided for the DAS and Donor coaxial jumper cables. These cables connect to the N-Female connectors on the BDA panel inside the enclosure. In some applications, fan hoods may be added to both sides of the enclosure.*

**Top and Bottom**

**Back of the Enclosure**

*Note: Watertight NEMA-4 enclosure mounting tabs are provided. The tabs are bolted through the 4 corner holes shown in the picture.*
