Read all the instructions and warnings carefully prior to using this product

• Do not store the speaker in a high temperature environment.

• Do not place the speaker near a fire or other excessively hot environments.

• Do not expose this speaker to moisture or submerge it in liquid. Keep speaker dry at all times.

• Do not attempt to charge the speaker using any other method or connection other than the speaker's provided charging cable.

• Do not disassemble this speaker or attempt to repair or modify it in any manner.

• Be cautious of excessive drops, bumps, abrasions or other impacts to this speaker. If there is any damage to the speaker such as dents, punctures, tears, deformities or corrosion, stop using the speaker and contact us

• If the product produces an abnormal smell, high temperature (low temperature during normal use), discolours or changes shape abnormally, stop using the product

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
