

SHENZHEN GIEC DIGITAL CO., LTD

Date: Aug. 10, 2020

Declaration letter

From:

To Whom It May Concern:

When the original application was made, the buyer only required the product to support 2.4G WiFi b/g/n (DTS) and blocked U-NII through software. Now the buyer puts forward a new requirement and is sure to support U-NII. According to KDB178919, a new wireless frequency or Equipment Class needs to be applied for a new ID. However, large-scale production has been produced, and labels, instructions and packaging containing FCC ID have been printed. Now you need to ask for help to dismiss the original application. The testing laboratory will complete the test according to the customer's requirements and resubmit the application, but the original ID number needs to be used.

The products bearing the original FCC ID: 2AHYK-VZV12US were plan to be purchased by the buyer, and now all the products were still in China, have not be shipped to any countries yet. Our company hereby the products with the original FCC ID: 2AHYK-VZV12US will not be sold in any countries.

The device information follow as:

Product name: Android TV Box

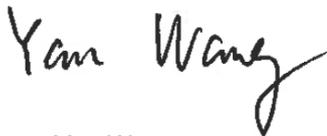

Model No.: V12US

FCC ID: 2AHYK-VZV12US

Sincerely,

SHENZHEN GIEC DIGITAL CO., LTD
