US Compliance

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

If you cannot eliminate the interference, the FCC requires that you stop using your product. Changes or modifications not expressly by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Product name, model and trademark can be found on the cover. FCC ID and LOGO can be found on the charging box.

FITTING

Try all the optional Cush Fins and ear tips for best fit and proper seal. The Cush Fin should be aligned by positioning the contour around the microphone hole.

QUICK TIPS

- Fully dry off the earbuds before putting in the charging case to avoid any damage to the case. The earbuds are sweat/water resistant but the case is not.
- Either earbud can connect to your device and be used independently. Simply take out the earbud from charging case and it will auto connect.
- Choosing the correct ear tip makes a significant improvement in audio quality due to proper seal for the driver. Try all ear tips for best results.
