

This device complies with Part 15B of the FCC Rules. Operation is subject to the following two conditions: (1) This device must not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15B of the FCC Rules. These limits are designed to provide protection against harmful interference to a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not properly installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, you can avoid this interference by following these suggestions:

- Do not use the receiver and transmitter of this equipment in the same room as a television.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a power outlet on a circuit different from that to which the receiver is connected.

NOTE: The Manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications are made at the user's own risk. The Manufacturer is not responsible for any interference caused by unauthorized modifications to this equipment.

- Do not use the equipment in wet areas.
- Do not use the device near flammable liquids or combustible substances.
