## Ottlite Technologies Inc

Attention: Certification reviewer	
RE: Request for Confidentiality FCC ID: 2AI7B-W22FS	
To Whom It May Concern:	
Permanent Confidentiality [Complete this section if permanent confidentiality is requested]	
Request to withhold permanently from public review certain portions of the application for certification for the referenced FCC identifiers. This request for confidentiality is made pursuant 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are permanently confidential:	to 47 CFR
Schematics	s not sure) such DA). All uding  n intended t be under a and the NDA n from ans. es and that the must
☐ Short-term Confidentiality [Complete this section if short-term confidentiality is requested]	
Request to withhold from public review for a period of [please enter 1 to 180] days from the date of Equipment Authorization and prior to marketing, certain portions of the application for certification for the referenced FCC identifiers. This request for confidentiality is made pursuant 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are short-term confidential for a period above from the date of the grant	equipment to 47 CFR
[Select one or more of items below that are <b>not</b> selected in the list above, as appropriate]  Schematics  Block diagrams  Operational Description Tune-up Procedure	

☐ Parts List ☐ Test Setup Photos ☐ External Photos ☐ Internal Photos ☐ Users Manual
Rationale for request for confidentiality:
We have invested considerable time and materials in research and development to produce the referenced product.    Permanent confidentiality: Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.   Short-term confidentiality: Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.
Sincerely,
Kyle Albinus Quality Manager 2022/05/18
