View of Main PCB(Top)

View of Main PCB(Bottom)

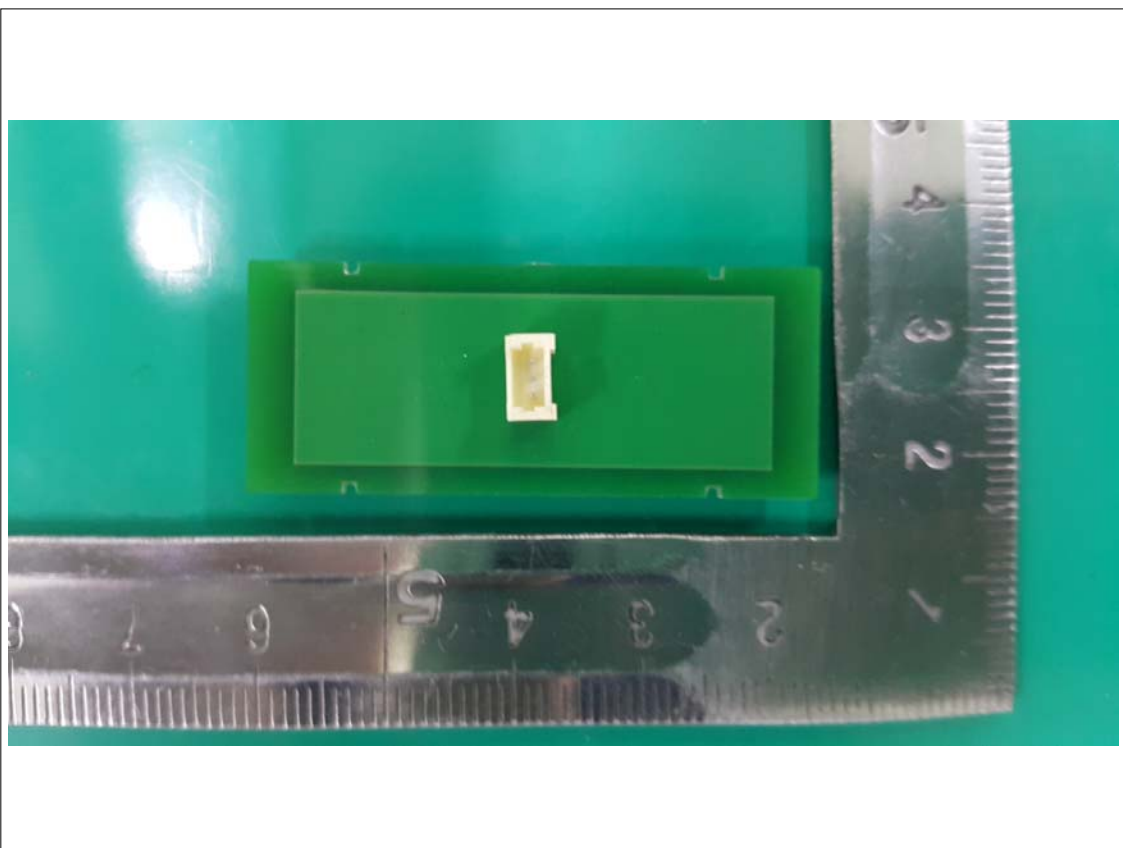

A photograph of a green printed circuit board (PCB) with various electronic components. The board is rectangular with a notch on the left side. It features a central square component, likely a microcontroller or sensor, with four pins. To the right of this component are several small surface-mount components, including what appear to be capacitors and resistors. A connector is visible at the top edge. The PCB is placed on a green surface next to a metal ruler for scale. The ruler shows markings in centimeters and millimeters.
