### User Guide

1. Scan QR Code below or search App Store for "Smart Sound" APP and install in your phone or other Bluetooth devices with iOS or Android.

2. Plug Bluetooth® Car Charger into your cars 12 volt socket to power on.
3. Turn Bluetooth® on from your phones settings and search for "PWFMT8" and connect.
4. Open "Smart Sound" APP on your phone and connect to "PWFMT8".
5. Tune your cars FM radio to an unused FM station, and tune "FM Station" in the APP to the same FM station.
6. Play music from the "Music" tab in the app using Cloud or local music from your phone or you can play a music source from other APP's in your phone.
7. Plug USB drive into the Bluetooth car chargers USB port with the USB symbol and play music from the USB drive (playlist will be loaded automatically to "Music" in APP)
8. Press APP for the music player controls.
9. After the Bluetooth Car charger is tuned to a certain FM station it will stay connected to that station when it is powered on, even if it is disconnected from the phone or if APP is closed.
10. You can deactivate and reactivate the FM transmission by pressing the middle button on FM Station Tab in the APP.

#### FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### \* RF warning:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
