("MiLi") warrants MiLi products against defects in materials and workmanship for a period of 1 year from the date of original purchase("Warranty Period"). If a defect arises and a valid claim are received by MiLi within the warranty period, at an option, MiLi will:

1. Repair the product freely.
2. Exchange the product with another new product.

Exclusions and Limitations

Please read all the terms and conditions of this manual carefully before using this product. The use of this product indicates you agree to be bound by the terms of this manual.

To the extent not prohibited by applicable law, in no event shall MiLi and its affiliates, agents or senior managers be liable to you for any losses of programs or data media stored in the device or non-MiLi products and accessories, disorder or loss of data, failure to transmit or receive any data, loss of business interruption or any other commercial damages and losses, arising out of or related to improper use or occurring beyond the scope of warranty.

The warranty does not apply to the following conditions, including but not limited to:

1. Damages caused by accident;
2. Damages caused by misuse, abuse or failure to observe instructions in this manual;
3. Damages not caused by any MiLi products;
4. Damages not caused by service performed by MiLi;
5. Damages caused by dismantling of or tampering with the product without the written approval of MiLi;
6. Damages caused by the use of a product with its serial number unclear or unrecognizable.

Environmentally friendly disposal

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately. The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points. With this little personal effort, you contribute to recycle valuable raw materials and the treatment of toxic substances.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement, This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
