

Appendix D. Photographs of the Test Set-Up

Photo 1: Left Cheek	Photo 2: Left Tilted
	
Photo 3: Right Cheek	Photo 4: Right Tilted
	
Photo 5: Front Face_15mm	Photo 6: Front Face_16mm
	

Photo 7: Front Face_10mm	Photo 8: Rear Face_15mm
 A close-up photograph of the front face of a black rectangular device. The device has a blue vertical band with the text "CONFIDENTIAL Engineering sample NOT FOR SALE" printed on it. The device is mounted on a black stand.	 A photograph of the rear face of the same device, showing a white, crumpled protective wrap underneath the device. The device is mounted on a black stand.
Photo 9: Rear Face_16mm	Photo 10: Rear Face_10mm
 A photograph of the rear face of the device, showing the white protective wrap underneath. The device is mounted on a black stand.	 A close-up photograph of the rear face of the device, showing the blue vertical band with the text "CONFIDENTIAL Engineering sample NOT FOR SALE". The device is mounted on a black stand.
Photo 11: Left Side_15mm	Photo 12: Left Side_16mm
 A photograph of the left side of the device, showing the blue vertical band. The device is mounted on a black stand.	 A close-up photograph of the left side of the device, showing the blue vertical band. The device is mounted on a black stand.

Photo 13: Left Side_10mm	Photo 14: Right Side_15mm
 A photograph of a black rectangular device with a blue cross-tape on its left side. The device is positioned on a white, textured surface, possibly a block of ice, with a black base visible at the bottom. The background is a plain, light-colored wall.	 A photograph of the same black rectangular device from a different angle, showing its right side. The blue cross-tape is visible on the right side. The device is on the same white, textured surface, with a black base and a white wall in the background.
Photo 15: Right Side_16mm	Photo 16: Right Side_10mm
 A photograph of the device from a different angle, showing its right side. The blue cross-tape is visible on the right side. The device is on the same white, textured surface, with a black base and a white wall in the background.	 A photograph of the device from a different angle, showing its right side. The blue cross-tape is visible on the right side. The device is on the same white, textured surface, with a black base and a white wall in the background.
Photo 17: Top Side_15mm	Photo 18: Top Side_16mm
 A photograph of the device from a top-down perspective, showing its top side. The blue cross-tape is visible on the top side. The device is on the same white, textured surface, with a black base and a white wall in the background.	 A photograph of the device from a top-down perspective, showing its top side. The blue cross-tape is visible on the top side. The device is on the same white, textured surface, with a black base and a white wall in the background.

Photo 19: Top Side_10mm	Photo 20: Bottom Side_15mm
 A photograph of a black rectangular device with a blue cross-tape on its top surface. The device is positioned vertically on a white, padded stand. The background is a plain, light-colored wall.	 A photograph of the same black rectangular device, viewed from the bottom side. It is also mounted vertically on the same white stand. The blue cross-tape is visible on the bottom surface.
Photo 21: Bottom Side_16mm	Photo 22: Bottom Side_10mm
 A photograph of the device from a different angle, showing the bottom side. The blue cross-tape is clearly visible on the bottom surface. The device is mounted vertically on the white stand.	 A photograph of the device from another angle, showing the bottom side. The blue cross-tape is visible on the bottom surface. The device is mounted vertically on the white stand.
