

Installation

1

Plug Switchmate Power into a 120V power outlet that you want to control

2

Download the free Switchmate App from the Google Play or Apple App store onto your phone

iPhone 5 and above/iOS 8.0+

Compatibility:

Android 4.4+

3

Launch the App and walk through the simple installation

4

Press one of the side buttons on Power to pair to your smartphone.

5

Enter your Wi-Fi password to your home network to enjoy remote access.

Troubleshooting

Q: I am having trouble getting my smartphone to connect to my Switchmate Power

A: Different phones may behave differently when connecting to Switchmate Power. When experiencing difficulties, try the following steps:

1. Turn WiFi and Bluetooth on - try to connect
2. Close the Switchmate App and restart the App - try to connect
3. Restart your Smartphone - try to connect
4. Uninstall the App and download it again.
