

<p><b>Solder Board-Component View 13</b></p>	 <p>A photograph showing the underside of a green printed circuit board (PCB) component. The board is populated with several components, including a black plastic component with a red tab, a silver cylindrical component, and various solder joints. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 60 mm. The board has the text "MX-918 JACK V02" and "2020-04-22" printed on it.</p>
<p><b>Solder Board-Component View 14</b></p>	 <p>A photograph showing the top side of a yellow printed circuit board (PCB) component. The board is populated with several components, including a black plastic component with a red tab, a silver cylindrical component, and various solder joints. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 60 mm.</p>

<p style="text-align: center;"><b>Solder Board-Component View 15</b></p>	 A photograph of a yellow PCB populated with various electronic components, including capacitors, resistors, and a large yellow component. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
<p style="text-align: center;"><b>Solder Board-Component View 16</b></p>	 A photograph of a green PCB populated with various electronic components, including resistors, capacitors, and integrated circuits. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
