INSTRUCTIONS FOR USE

Charging Instructions

- The Bluetooth Headphone comes with a built in rechargeable battery. We recommend you charge the battery fully before using it for the first time. Only use the supplied USB Cable to charge the Bluetooth Headphone. Please charge for about 1.5-2.5 hours.
- Connect the USB charging cable to a computer USB port and the Micro USB plug to the charging port of the device. The Red LED light turns on while the device is charging. It takes 1.5-2.5 hours for the unit to fully charge. When the battery is fully charged, the red light will turn off.

Turning on/off the device

- Press and the “||<” **button** for 2-4 seconds to turn ON or OFF the device with indication tone.

Pairing the device with Bluetooth devices (phone or music device)

- Place the Bluetooth Headphone and Bluetooth device (phone or music device) no further than 33 feet apart;
- Activate the Bluetooth function on your Bluetooth device (phone or music device). Then select the “**2BOOM-HPBT295**” from the list of available Bluetooth devices.
- Once paired successfully, the alert tone will be heard and the LED flashes blue slowly.
- You can now start to use the device.
- Please note pairing mode will last for around 3 minutes. If no devices are paired during this time, the device will power off automatically.
- If pairing is unsuccessful, turn off the device first and then re-pair following the above steps.
- Once you have paired the Bluetooth Headphone with a device, the Headphone will remember this device and will pair automatically when the device’s Bluetooth is activated and in range.
- The Bluetooth Headphone will attempt to automatically connect to the last device it was paired with when switched on. If you want to pair it with a new device, please follow the steps outlined above.

FCC ID: 2AIDL-SS-HPBT295

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure requirement. The device can be used in portable exposure condition without RF striction.
