INTELLIGENCE AGENCY

INSTRUCTIONS

Real time communication to keep your partner informed of all suspicious activity!

ON/OFF switch

Speaker

2 WALKIE TALKIES

Talk Button

Flip the handset over to reveal the battery compartment. Using a cross head screwdriver unscrew the door of the compartment. Insert the batteries following the polarity icons inside. Once the batteries are inserted, close the door and re-screw.

THE MISSION
Use the walkie talkies to track down the enemy while keeping in touch with your agency.

Turn the On/Off switch to the ON position. Press and hold the Talk Button. Talk into the speaker. Let go of the button to hear your partner speak.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
