Subject: Class II Permissive Change to FCC ID: 2AIGO-AWMOD8

Dear Application Examiner,

The above referenced device has a grant note restricting transmitter co-location operation in a portable application. This is a Class II Permissive Change request to allow transmitter co-location operation in a portable FRS/GMRS host device manufactured by AWIRE Technology Corp. The host device is currently in the process of being filed as follows:

Manufacturer: AWIRE Technology Corp.
Model Number: Stealth-AW1001
FCC ID: 2AIGO-AW1001

No changes to the design, circuitry or construction have been made to the aforementioned module. A SAR report documenting exposure compliance of the simultaneous transmission, co-located transmitters in a portable application is being submitted with this request. A limited modular approval for use only in the Stealth-AW1001 is sought with this request.

Please contact me if there are questions or additional information required concerning this request.

Sincerely,

A handwritten signature in black ink, appearing to read "Art Voss".
