

Differentiation Statement

1. Color: CR131 and CR122 are different color;
2. Surface: CR131 has not the LED light in the X-axle (See the following picture description);
3. Electric Circuit: The PCB Layout of the A, B, C and E boards of CR131 and CR122 are the same, however, the A, B and C board of CR131 have less led lights relative to those of CR122 (Such as: D9、D10、D11、D13、D14、D15、D16、D19、D20、D21、D23、D24、D25), the E board of CR131 has less LED-lamp drive circuit components relative to those of CR122 (Such as: U5、U7、R41、R43、R44、R52、R55、R56、R45、R57、C25、C37、D23、D24) .

Except for the above differences, all the others are the same.
