

A black, rectangular electronic device is shown from a top-down perspective. The top surface features a circular cutout on the left, a central circular component, and a large, complex cutout on the right. The device is mounted on a blue fabric surface. A red rectangular box highlights a section on the front-left side of the device, containing the word "Label" in red text. To the right of this box, there is a rectangular cutout with a small circular component and a multi-pin connector. The device has four screws on the top surface and four on the front panel.
