Inquiry on 05/31/2017 :

Inquiry:

Dear Sir/Madam,

Good day.

Attached is a naked PCB with BLE function. we are going to apply for FCC ID and FCC DoC. Since the size of the PCB is very small, there is no enough area to print the FCC ID and FCC Logo on the board. Can we print the FCC ID and FCC Logo on the user manual?

Thanks!

FCC response on 05/31/2017

Is there an enclosure for this PCB and can you explain why you need DoC if you are filing for a certification.

---Reply from Customer on 05/31/2017---

Dear Sir/Madam,

No enclosure is for this PCB.

It's a USB dongle too, which could be controlled by the PC software via USB port. So we are applying for DoC. And for BLE, we are applying for a certification.

Thanks!

FCC response on 06/02/2017

Yes, this is acceptable to be placed in the manual.
