

Safety Human Exposure

1.1 Radio Frequency Exposure Compliance

1.1.1 Electromagnetic Fields

RESULT:

Pass

Report No. : CN24981B 003
Test Specification
Test item : Portable Bluetooth Speaker
Identification / Type No. : ASM01G
FCC ID : 2AIMRASM01G
Test standard : CFR47 FCC Part 2: Section 2.1093
FCC KDB Publication 447498 v06

Measurement Record:

The minimum distance for the EUT is less than 5mm.

Since maximum conducted output power of the transmitter is 7.88 dBm \approx 6.14 mW < **Error! No sequence**

specified. $\frac{3 * d}{\sqrt{f}} = 9.52$ mW.

Hence the EUT is excluded from SAR evaluation according to FCC KDB Publication 447498 D01 General RF Exposure Guidance v06.
