7. Trouble shooting

Problem	Solution
Pairing Failed	Make sure you search the right model Infnitive Necksport. Or re-turn on the earphone. There are too many bluetooth devices when searching. Turn off the other bluetooth devices.
Low volume or distortion	Adjust the volume higher. Charge the earphone.
Music staccato	Check if the distance is over bluetooth distance or there is barrier between earphone and device.
Bluetooth LED do not light	Low battery, need to charge. Or re-turn on the earphone.

Warning:

Do not expose your Bluetooth Earphone to liquids, humidity or extreme temperatures.

Do not attempt to dismantle or charge with improper power source. Doing so may result

In damage to the earphones. Do not use earphones during inclement weather such as

Lightning storms as it may cause damage to the device or increase the risk of electric Shock.

Listening to music at a maximum volume may heart your ears and can damage your hearing .

Please power off the earphones and do not listening to music while charging, to

avoid damage to the product.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.
