

Quick Start Guide

TAKE A STEP FORWARD
INTO THE BLOCKCHAIN ERA

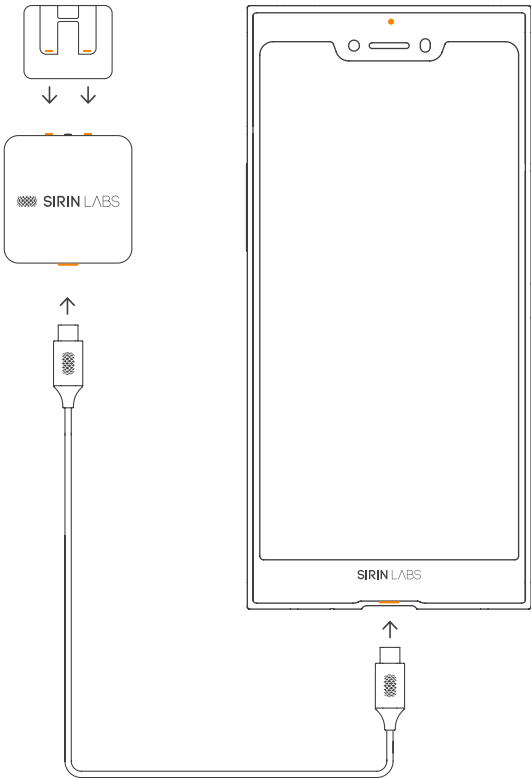

IN THE BOX

1. FINNEY™ Blockchain Smartphone
2. SIM Tool
3. Literature Envelope
4. International Charger, including 5 Inlet Adapters
5. USB Type-C Cable for power delivery and data transfer
6. Audio Dongle

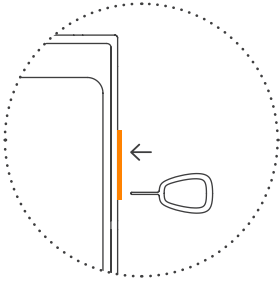

CHARGING YOUR FINNEY™

FINNEY™'s International Charger is provided with a set of interchangeable inlet adapters to support your needs while at home and abroad. To use the charger, snap on the appropriate inlet adapter before connecting it to a power outlet. Use the cable provided to connect the FINNEY™ to the charger.

In the event that your FINNEY™ is powered off, you can verify that it is actively charging by observing the red LED indicator.

PLACING A SIM CARD

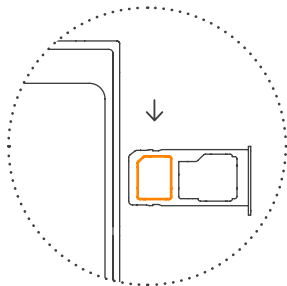

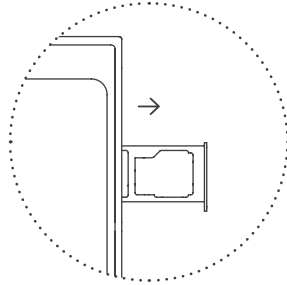

Step 1

Use the provided SIM tool in the box to eject the SIM card tray.

Step 2

Take the tray out of the device completely.

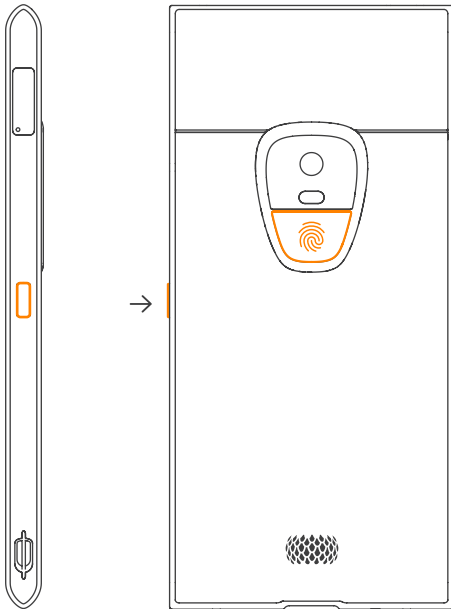

Step 3

Place your SIM card into tray. Then, gently push the tray back into place to close it.

FINNEY™ ACTIVATION

If your FINNEY™ is turned off, press and hold the power button until the screen turns on.

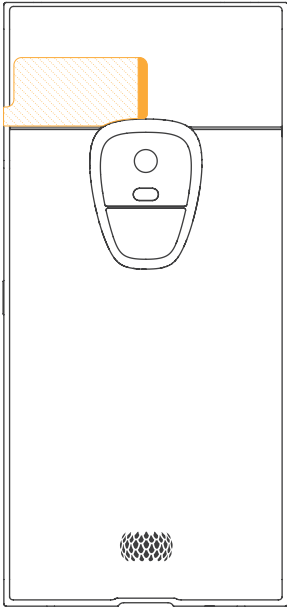

The fingerprint sensor is located on the bottom part of the back element. It is strongly advised to use biometric means of authentication for protection of your privacy, and specifically to approve blockchain transactions using FINNEY™.

TAMPER-PROOF WALLET SEAL

To ensure the integrity of FINNEY™'s cold storage wallet, SIRIN LABS has implemented a holographic seal. Please inspect this seal to verify that the wallet was not activated at any point from when it left our production facility to its delivery into your trusted hands.

Upon verification that the seal has not been tampered, you are free to remove the seal and set up your new wallet. The wallet application will guide you through the process.
