Charging your Presto

When Presto is low in battery, you will hear a series of alerts during playback to indicate that it's time to charge.

Use the included Charging Cable to connect Presto to a charging source.

While charging, light is solid Red. When complete, the light will turn off.

Turning Presto On/Off

Press and hold the button for 5 seconds to turn Presto on or off.

There will be a distinct start up and shut down sound.

Pairing Presto via Bluetooth

While Presto is on, the light will blink blue when it is in Pairing Mode.

Go to your device's Bluetooth settings.

Tap "Presto" to pair.

The light will be solid blue and 2 beeps will sound to confirm pairing is successful.

Play/Pause

While playing music press button to pause and press it again to resume.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
