Setting up your speaker

iOS   or   Android

1. Press and hold the power button for 3 seconds to turn Aria on, you will hear a startup chime. The lights will begin flashing red and green. You are now in Pairing Mode. *Note: if no devices are paired within 5 minutes, Aria will turn off. Turn Aria back on to re-enter Pairing Mode.*

2. Go to your phone/device Settings. Find your Bluetooth settings. *Note: if you are having trouble, please refer to your devices support manual.*

3. You should see ARIA listed in the list of nearby Bluetooth devices. If you do not see ARIA, make sure that you are in Pairing Mode (red and green flashing lights on ARIA).

Tap on the device named Aria to pair by Bluetooth. Once paired, you will hear a sound indiciating a successful pairing and a green light will flash.

4. Go ahead and play your favorite tunes!

5. When you're done enjoying your music, press and hold for 3 seconds to turn ARIA off.

Note: to pair ARIA with 'th another device, you must first disconnect any devices currently paired by turning off the devices Bluetooth, forgetting ARIA as a paired device, or not having the device in range.

Communication	Bluetooth 4.1+EDR
Bluetooth Range	Up to 30 ft.
Playback Time	8 hours or more
Speaker Output	(2) 5-watts
Input	+5V, 1A
Battery Capacity	1,200mAh

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
