Applicant		Ningbo Pdlux Electronic Technology CO.,LTD.							
FCC ID:		2AIWW-PD-165							
	Section 15.212 Modular Transmitters								
Request	t for Modu	ular Approval	$\boxtimes$	Request for Limited Modular					
				Approval					
	Requirements		EUT Conditions	Comply(Y/N)					
		Single M	1odular A	pproval Requirements					
1	The radio elements of the modular transmitter must have their own		odular	Refer to external photos.	Υ				
			own	This module has a shield cover.					
	shielding. The physical crystal and		al and						
	tuning capacitors may be located external to the shielded radio		cated						
			io						
	elements.								
2	The modular transmitter must have buffered modulation/data inputs (if		Buffered data inputs	Υ					
			nputs (if	stage has been integrated					
	such inputs are provided) to ensure		ensure	in chip					
		nodule will comply		model: CKRF7512CK24					
	part 15 requirements under								
	conditions of excessive data rates or over-modulation.		rates or						
3	The modular transmitter must			The module have its own power	Υ				
	have its own power supply		oly	supply regulation. Please refer					
	regulation.			to Block Diagram					
4	The modular transmitter must			The modular transmitter has two	Υ				
	comply with the antenna and			PCB antennas, one is TX,the other					
		ion system require	ments	is RX and antennas gain are					
		03, 15.204(b) and		6.33dBi, Refer to internal photo.					
		. The antenna mus							
		nently attached or							
		e" antenna coupler	-						
		ons between the m							
	and the antenna, including the		ine						
	cable). The "professional		T 202 :-						
		on" provision of §1							
		cable to modules b							
		imited modular ap							
	under paragraph (b) of this section.								

Г	The modules transmitted accept	The modules transmitted in tests 1.	V
5	The modular transmitter must	The modular transmitter is tested in	Υ
	be tested in a stand-alone	a stand-alone configuration. Please	
	configuration, i.e., the module must not be inside another	refer to setup photo.	
	device during testing for		
	compliance with part 15		
	requirements. Unless the		
	transmitter module will be		
	battery powered, it must		
	comply with the AC line		
	conducted requirements found		
	in §15.207. AC or DC power		
	lines and data input/output		
	lines connected to the module		
	must not contain ferrites,		
	unless they will be marketed		
	with the module (see		
	§15.27(a)). The length of these		
	lines shall be the length typical		
	of actual use or, if that length is		
	unknown, at least 10		
	centimeters to insure that there		
	is no coupling between the case		
	of the module and supporting		
	equipment. Any accessories,		
	peripherals, or support		
	equipment connected to the		
	module during testing shall be		
	unmodified and commercially		
	available (see §15.31(i)).		
6	If using a permanently affixed	Refer to the label.	Υ
-	label, the modular transmitter		
	must be labeled with its own		
	FCC identification number, and,		
	if the FCC identification number		
	is not visible when the module		
	is installed inside another		
	device, then the outside of the		
	device into which the module is		
	installed must also display a		
	label referring to the enclosed		
	module. This exterior label can		
	use wording such as the		
	following: "Contains		

	Transmitter Madule		
	Transmitter Module		
	FCC ID: 2AIWW-PD-165" or		
	"Contains		
	FCC ID: 2AIWW-PD-165". Any		
	similar wording that expresses		
	the same meaning may be used.		
	The Grantee may either provide		
	such a label, an example of which		
	must be included in the		
	application for equipment		
	authorization, or, must provide		
	adequate instructions along with		
	the module which explain this		
	requirement. In the latter case, a		
	copy of these instructions must		
	be included in the application for		
	equipment authorization.		
7	The modular transmitter must	Refer to manual.	Υ
	comply with any specific rules		
	or operating requirements that		
	ordinarily apply to a complete		
	transmitter and the		
	manufacturer must provide		
	adequate instructions along		
	with the module to explain any		
	such requirements. A copy of		
	these instructions must be		
	included in the application for		
	equipment authorization.		
8	The modular transmitter must	The EUT will comply with RF	Υ
	comply with any applicable RF	exposure requirements in its	
		-	
	exposure requirements in its	final configuration.	

Sincerely Yours,
