

#### FCC INFORMATION:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide residential protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### FCC NOTICE:

To assure continued compliance, follow the attached installation instructions and use only shielded cables when connecting to other devices. Modifications not authorized by the manufacturer may void user's authority to operate this device.

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### LOCATION OF CONTROLS

1. + Button
2. ● Button
3. - Button
4. LED Indicators
5. Microphone
6. Rubber Cover
7. Micro USB Port (For Charging only)

#### POWER SOURCE

The unit has a built-in Li-Ion rechargeable battery, charge it before first time use or when it is drained as follows:

1. Open the Rubber Cover on the unit.
2. Connect the small plug from the supplied USB Connection Cable to the Micro USB Port.
3. Connect the full size USB Plug from the supplied USB Connection Cable to the USB Port on the Personal Computer or USB Charger (Computer and USB Charger not included).
4. When charging, the Red Indicator on the unit will illuminate.
5. When charging is complete, the color of the indicator will turn to Blue.
6. After charging, disconnect the small from the unit then close the rubber Cover.

#### NOTES:

- Your battery will last longer if you following these simple guidelines for caring and storing:
- A. Before first time use, recharge the unit approximately 4 hours until the unit is fully charged.
  - B. Charge and store the unit within the temperature range of 5°C - 35°C (40°F - 95°F).
  - C. Do not overcharge (longer than 24 hours). Excessive charging or running the unit until battery fully drains will damage battery. Battery life will be extended if you keep the battery fully charged.
  - D. Battery life naturally shortens slowly over time.
  - E. The rechargeable battery incorporated in this product is not user replaceable.

#### OPERATION

##### BT(Bluetooth) Pairing:

For first time use or re-pairing the unit to a new BT Device, follow instructions below:

1. Press and hold the ● Button on the unit approximately 6 seconds until the Red and Blue Indicators on the unit illuminates and blinks.
2. Power on the external BT Device and enter to BT searching mode. Start pairing following the on screen instructions from the external BT Device. When paired:
  - You will also hear two "Beeps" sound from earbuds.
  - The Red LED Indicator will turn off.
  - The Blue LED Indicator will become slow blinking.
3. If pairing is complete you may now play music and answer the phone with your external BT Device.
4. During playback:
  - Press the ● Button to pause; press again to resume normal playback.
  - Press and release the + or - Buttons to adjust volume level as desired.
  - Press and hold the + or - Buttons to skip tracks.
5. If the unit is paired to a Cell Phone and a call is incoming during an active music session:
  - Press the ● Button then speak to the Microphone to answer the call. When your call is complete, press the ● Button to disconnect or end the call and resume to music playback.
  - Or, press and holding the ● Button approximately 1 second to decline the incoming phone then resume to music playback.
6. To shut off the unit, press and holding the ● Button approximately 3 seconds until the Red Indicator is illuminate and blink then release the button.

##### Notes:

- When the external BT Device searches for the unit, our model number "MBH543" will appear on the display of external BT Device.
- If while pairing you are asked for a code please try "0000" or "1234".

##### Normal operation after paired:

1. Power on the external BT Device and enter to BT mode.
2. Press and hold the ● Button on the unit approximately 1 second until the Blue Indicators on the unit illuminate and blink then release the button.

#### TROUBLESHOOTING

Check the following before requesting service:

| SYMPTOM                | POSSIBLE CAUSE                                    | POSSIBLE SOLUTION   |
|------------------------|---|---|
| Can't power on         | Built-in battery drained                          | Recharge the battery as page 3                            |
| No sound or sound weak | Volume of the unit was set to minimum position    | Increase the volume by press the + Button on the unit     |
|                        | Volume level of paired device is in low level     | Rise the volume level of the paired device                |
| Sound distortion       | Volume level too high                             | Reduce the volume level by press the - Button on the unit |
|                        | Volume level of the paired device too high        | Reduce the volume level of the paired device              |
| BT not functioning     | The external BT device had NOT paired to the unit | Pair the external BT device to the unit as page 4-5       |
|                        | The external BT device too far from the unit      | Place the external BT device close to the unit            |

#### GENERAL SPECIFICATIONS:

Power source: Built-in DC 3.7V, 120 mAh (0.444 WH) rechargeable Li-Ion Battery, Recharge by DC 5V through the Micro USB Port  
 Impedance of the Earbuds: 16 Ω per Channel  
 Audio power: 5 mW per Channel (Total 10 mW)  
 BT Operation Distance: 32 Feet in open area

#### PACKAGE INCLUDES:

- 1 x Owner's Manual
- 1 x USB Connection Cable (For Charging only)

SPECIFICATIONS AND ACCESSORIES ARE SUBJECT TO CHANGE WITHOUT NOTICE

#### LIMITED WARRANTY
