# BS301RK TWS Bluetooth Headset User Manual

Bluetooth headset should be used with the compatible devices which support Bluetooth wireless technology. This allows you to make two calls and enjoy the music streaming at any time freely. Please read this user manual carefully before using the headset, and also read your device's user manual regarding the Bluetooth function, and pay attention to those important safety and maintenance information. Please keep the headset away from children.

## **Specifications**

Bluetooth Version: V5.0

Bluetooth Profiles Supported: HFP, HSP, A2DP, AVRCP
Audio Decoding Protocol: SBC, AAC, APTX,CVC

Transmission Power: Class 2

Operation Range: Up to 10 meters
Frequency Range: 2.4GHz-2.48GHz

Battery of Headset: 40mAH Li-polymer Battery

Charging Voltage of Headset: DC 5V±0.2V
Charging Time of Headset: About 1.5 hours

Battery of Base : 400mAH Li-polymer Battery

Charging Voltage of Base : DC 4.5 V-6.0 V
Charging Time of Base : About 1.5 hours

Charging Headset Times from

Charging Base: About 2-3 times Music Playing Time: ≥ 4.5 hours Talk Time: ≥ 5 hours ≥ 100 hours Standby Time: Driver: φ10mm Driver sensitivity : 93±3dB (1KHz) 16Ω±15% Driver impedance: Driver frequency ring range: 20Hz-20KHz

The two headsets pairing failure/TWS paired successful but can not find the headset(R)	Too many pairing records	Reset the headsets
Charging base without indicator light when being charged	NO DC power supply	Check the Micro USB charing cable connection
NO indictor light on headsets	The headsets couldn't beingcharged in charging base	1)Relocate the headsets     2)Charge the charging base
Turning off automatically	Low battery	Charge headset for 1-2 hours
Headset echo	Volume is too loud or environment is noisy	Adjust the volume at phone or change a place
Noise in call	Environmental interfere or out of working range	Change place or go back to working range
Low voice of the calling party	Wrong Wearing	Follow the wearing instruction

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
