

CANCAN

Instruction Manual

How to charge your CanCan

Before your first use, charge your CanCan fully by connecting the provided micro-USB cable to a USB wall adapter. When LED lights are lit, this represents that the device is charging. Once it is fully charged, all LED lights will turn off.

Play Audio with CanCan

- Flip the cap off the Cancan to increase sound quality.
- Turn the CanCan on by pushing the switch to the left. A jingle will sound and a blue LED light should turn on at the base of the Cancan. It will shine red if your Cancan is low on power.
- Be sure that your Bluetooth device is searchable before trying to connect. Search for the Cancan option and press connect on your device. When the Cancan is paired, a jingle will sound to notify that the connection has succeeded.
- All music and volume settings are controlled directly through your device.
- Place the cap back onto the Cancan during transit to ensure product's safety.

Technical Data:

Cancan Bluetooth Speaker: Magnetically Shielded 31mm (3.3Ω)

Output: 1.5W / Freq Resp: 200Hz- 20kHz / Sig-Noise ≥80db / Distortion ≤0.3%

Battery: 3.7V Lithium Polymer Cell

Capacity: 350mAh

Operation Voltage: 3-4.2V DC

Playback Time: ≤ 6 hours (volume dependent)

Range ≤ 33 ft

Bluetooth Type: 3.0

Dimensions: 1.9 x 1.5 x 1.9 in

Weight: 0.12 lbs

Safety Instructions:

Do not get the Cancan wet. Discontinue use immediately.

Do not try to open or disassemble the device.

Choking hazard: keep away from children.

Do not store Cancan in extreme weather or temperature conditions.

Company is not liable for any personal injury or property damage associated with the misuse of this product. It is expected that all specifications on proper handling of the device set out in these operating instructions are followed. All warranties or guarantees are rendered invalid after six months from date of purchase or if the product suffers from user error.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
