

# chyrp

## USER MANUAL

### PRODUCT FEATURES

- Wireless functionality with a range of 33 ft (10 m)
- Compatible with smartphones and other media devices
- Built-in rechargeable battery
- Comes with an adjustable carrying strap

### FUNCTIONS

1. Power on/off/play/pause button
2. Micro USB Charging port

Press and hold the multi-function button (1) for 4 seconds to power Chyrp on or off.

Press the multi-function button (1) once to play music. Press once again to pause music.

### WIRELESS CONNECTION

When Chyrp is turned on, it will be automatically discoverable by your wireless devices. Select “Chyrp” from your list of devices. Chyrp will indicate a successful wireless pairing by changing from a flashing white LED light to a solid white LED light. Once your device is connected, Chyrp will pair automatically upon future use and stay paired until you manually disconnect it.

Chyrp will automatically power off within 15 minutes if no devices are paired.

### CHARGING

When Chyrp is low on power, connect the micro-USB port with the charging cable and its USB plug into a USB port with power on the other end. While charging, the LED shows red and will turn off after the battery is fully charged.

**FCC Statement**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
