05 Using the Headphones (cont'd)

Charging the Headphones

To charge the headphones, attach the small end of the micro USB cable to the micro USB charging port on the underside of the right headphone. Attach the large end to a USB adaptor, battery pack, or USB port on a computer.

The LED indicator will turn RED while charging and turn off when charged.

Info Make sure to charge your Headphones for at least 2-3 hours before using them for the first time

06 Additional Warnings and Precautions

READ THIS MANUAL CAREFULLY AND SAVE

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

FCC Part 15:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment may not be co-located or operating in conjunction with any other antenna or transmitter.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
