DECLARATION OF SIMILARITY

Date: 2018-5-7
FEDERAL COMMUNICATIONS COMMISSION
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Dear Sir or Madam:

We, Signifi Mobile Inc, hereby declare that our product Uniden Cellular Signal Booster, FCC ID: 2AJAN-SMT17CPAL, Model Number: SM-T13CPAL, SM-T10CPAL are electrically identical with the Model SM-T17CPAL series that was certified by Bay Area Compliance Laboratories Corporation. They named differently just due to different gains achieved by adjusting the potentiometers inside or LCD touch screen outside . However they have the same design, PCB board and work diagrams.

The SM-T17CPAL repeater has a factory preset maximum output power of UL 17dBm/ DL 17dBm and maximum gain of UL 60dB/ DL 65dB. However, some users maybe want to use lower power due to different coverage. When the output power is preset at UL 17dBm / 12dBm and maximum gain of UL 60dB/ DL 63dB, then the model should be SM-T13CPAL; When the output power is preset at UL 17dBm / DL 10dBm and maximum gain of UL 60dB/ DL 60dB, then the model should be SM-T10CPAL.

We have summarized the differences in below table for your better understanding:

Item	Model Number	Max. Power UL/DL	Max. Gain UL/DL	Size(mm)
1	SM-T17CPAL	17dBm/17dBm	60dB/65dB	200*117*40
2	SM-T13CPAL	17dBm/12dBm	60dB/63dB	200*117*40
3	SM-T10CPAL	17dBm/10dBm	60dB/60dB	200*117*40

Please contact me if there is any question.

Sincerely,

Signature:
