When the left and right ears cannot pair. Please click four time swiftly not complete.Put the earphones into thecharging compartment and take them out to pair them again.

Charging

You need to charge your device for 10 minutes before using it for the first time or after a long period of absence.
When the battery of the earplug is low, it will issue "Please charge" which can put the earphone into the charging box. When the earphone is charging, the white light will be displayed, and the light will be off if the charge is low. Please close the charging case when storing orcharging the headphones. The charging box is equipped with a built-in battery. Please use a type-c cable to connect to the charging box, and then connect it to a computer or other charger for charging. When charging, the indicator light flashes and the full charge indicator light is always on.

Warm tips and safety information

Dear users, please carefully read and observe the following precautions before using and operating the device:
1. Please fully charge the device before using, and do not use a charger with output higher than 5V/2A for charging.
2. Please use the product in the temperature range of 0℃-45℃. If the product is not used for a long time, please charge it within 3 months to ensure good battery performance.
3. After wearing the product for exercise, it is recommended to clean the sweat and wear stains on the surface of the product with a dry towel and let it dry for 2 hours. Please make sure that the charging port is dry before charging the earphones, so as to prevent short circuit caused by sweat from affecting the service life of the product during charging.
4. This product contains batteries. Do not throw, press, disassemble or immerse the product in water. Keep it away from fire, water and high voltage equipment. Do not continue to use the product if it is overheated, dropped or damaged, or falls into liquid.
5. Prolonged exposure to high volume may cause permanent hearing loss, and the minimum volume required is recommended.
6. Please stop wearing the product and consult your doctor if you have skin discomfort or your ears are buzzing.
7. If you are fitted with a pacemaker or other electronic medical device, please consult your doctor before using this product.
8. Keep the product out of reach of children. Swallowing the product or the packaging bag and the small parts may cause suffocation.
9. Please observe all signs and instructions that require you to turn off electronic devices or RF radio products in designated locations such as hospitals or airplanes.
10. Please observe the traffic safety and local laws when using this product.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
