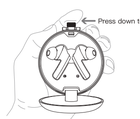
Tips

●Bluetooth Signal is easily interferred in the following environment.
1. Compact environment with multiple Wi-Fi signals and Bluetooth Signals.
2. Airport, railway, metro where electromagnetic interference is strong.
●Left earbud is master earbud. When using the earbuds, it would guarantee more stable connection if the paired device is near the Left earbud.
●Current bluetooth technology cannot guarantee synchronization of gaming and video playing.
●During use, the microphone of the earphone may be blocked by water, sweat, dirt, etc., which will affect the active noise control effect, or you may hear abnormal sound (whistling sound). In these cases, it is suggested to use a dry lint-free soft cloth to clean the earphone or dry it by cool air.

EN



In order to obtain a more stable and better experience, it is recommended to use mobile phones with Android 6.0, iOS 10.0 or higher OS versions.

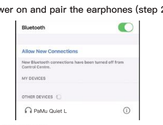
How to power on and pair the earphones (step 1)

Power on:

Method 1. Take out the earphones from the stand, they will start up automatically and enter the pairing mode (make sure the stand is charged).

Method 2. Touch the button of the earphone to turn it on (the earphones must not be in the charging case and must be off).

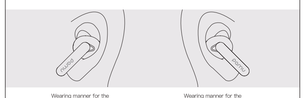
How to power on and pair the earphones (step 2)



Pairing of the main earphone:

Turn on your phone's Bluetooth, search for "PaMu Quiet L" in the available devices list, and click on it to complete the pairing of the main earphone.

How to wear



Wearing manner for the left earphone

Wearing manner for the right earphone

In order to obtain better noise reduction effect, you can adjust the angle after wearing the earphones, so that the earphones fit snugly and firmly in your ears

Choose the right earbuds

Earbuds with appropriate sizes are of great importance to the noise reduction experience, sound quality and comfort. Our earphones are equipped with S, M, and L earbuds (M earbuds are installed on the earphones), please try on different sizes of earbuds and choose

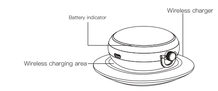
How to use the wireless charger



FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .
