● Technical parameters:

1. Applicable range: suitable for Xbox One (S) the first and second original controller and elite controller.
2. Wireless Protocol: 2.4G
3. Wireless distance: effective range 8-10 meters
4. Working current (backlight on): 40mA
5. Working current (press any key when the backlight off): 0.8mA
6. Working current (backlight off and without any operate): 8uA
7. Product dimension: 142*63*45mm
8. Material: ABS

● Matters need attention

In order to use this bluetooth product correctly, insure a good performance, please read carefully and comply with the follows:

- ※ Do not hit the keyboard seriously.
- ※ Do not let this product contact with benzene, thinner, chemical, etc.
- ※ Do not close to strong magnetic field, electric field.
- ※ Please avoid direct lighting or heating apparatus.
- ※ Do not disassemble, repair or reconstruct by yourself.
- ※ Please classify and deal with the waste packaging, batteries and old electronic products properly.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
