

1. Product layout

- A. Spot guide
- B. DC input port (Micro USB)
- C. USB 2.0 Port
- D. LED indicator

* LED indicator status

- Ready to charge: Blue LED
- Charging: Light blue LED
- Charging complete : Pink LED (light blue LED may turn on depending on the smartphone's specifications)

2. Product instructions

- Connect the charging adapter (optional) to the wireless charger.
- Place a device supporting the WPC standard that you wish to charge on the pad.
- Adjust the receiver coil of the device being charged to position it on the center of the wireless charger.

<Example>

- When charging starts, the wireless charger's blue LED will turn on.
- When charging is completed, the pink LED will turn on and the charging icon on the phone will also indicate that it is charged. (The light blue LED may turn on depending on the smartphone's specifications.)
- The red LED indicates that a device is not charging properly or that its position needs to be adjusted.

3. Safety instructions

- Be careful not to hurt your hands when opening the package.
- Do not use the product for uses other than its intended use.
- Do not use the product with wet hands, as this could result in injury or electric shock.
- Do not attempt to disassemble, repair or fix the product.
- Do not store the product with metal products such as coins, keys, necklaces, etc.
- Use the product in a dry place where there is no moisture or humidity.
- Stop use of the product for a while if it is too warm.
- Only use an adapter qualified for DC 5 V/1.5 A or above to stably charge the product.
- Do not place any material composed of metal on the product to prevent abnormal overheating or malfunctioning.
- If a receiver coil of a charging device is misaligned from the center of the product, it may not be properly charged.
- Do not let children, infants or pets put the product in their mouths.
- The warranty does not cover any repairs needed due to improper care or the negligence (water damage, breakage, and damage) by users.
- Baro Technology is not responsible for any injury or loss arising from failure to follow these instructions.
- If this equipment does cause harmful interference to radio or television reception, which can be determined turning the equipment off and on, the user is encouraged to try to connect the interference by one of the following measures.
 - > Reorient or relocate the receiving antenna.
 - > Increase the separation between the equipment and receiver.
 - > Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - > Consult the dealer or an experienced radio/TV technician for help.

4. Product warranty

- Free warranty period : 1 year

- A/S : +82-31-431-2242

Product name : Wireless Charging Pad

Model name : BTWC-001

Input : DC 5 V, 2.0 A

Dimensions (mm) : 80 mm x 160 mm x 9 mm

Weight : 90 g

Manufacturer : BARO TECHNOLOGY CO., LTD.

(6F Sewon Bldg, 314-9, Seoksu-dong, Manan-gu, Anyang-si, Gyeonggi-do, 13970, Korea)

FCC Information

This device complies with part 15 of the FCC Results. Operation is subject to the following two conditions :

- (1) This Device may not cause harmful interface, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for CLASS B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- 1.1. Reorient or relocate the receiving antenna.
- 1.2. Increase the separation between the equipment and receiver.
- 1.3. Connect the equipment into an outlet on a circuit different from that to which receiver is connected.
- 1.4. Consult the dealer or experienced radio/TV technician for help.

WARNING

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

"CAUTION : Exposure to Radio Frequency Radiation.

Antenna shall be mounted in such a manner to minimize the potential for human contact during normal operation. The antenna should not be contacted during operation to avoid the possibility of exceeding the FCC radio frequency exposure limit.
