Item	Requirements	EUT
1	Have its own RF shielding	Device is equipped with metal shielding
		to cover RF section. Refer to external
2	Have buffered modulation/data	photos. All inputs to the modules are buffered
	inputs (if such inputs are provided)	through logic and microprocessor
		inputs.
3	Have its own power supply regulation	Module chipset incorporates voltage
4		regulation to transceiver circuitry The device has a ceramic antenna and a dedicated antenna.
4	Meet the antenna requirements of	
5	section 15.203	Device is tested in a test fixture in a
	Demonstrate compliance in a	FCC ID label format will be included in the filling. Host ID label will be displayed on the host system.
6	stand-alone configuration	
6	The licensed module must have a FCC	
	ID label on the module itself. That FCC	
	ID label must be visible through a	
	window on the final device or it must	
	be visible when an access panel, door	
	or cover is easily removed. If not, a	
	second label must be placed on the	
	outside of the final device that	
	contains the following text: Contains	
	"FCC ID: 2AMVP-VCB601"	
7	The module must comply with all	Please refer to "User Manual" Exhibit
	specific rules applicable to the	
	transmitter. The grantee must	
	provide comprehensive instructions	
	to explain compliance requirements.	
8	The module must comply with RF	RF exposure evaluation is exempted because of low output power.
	exposure requirements. See FCC	
	Rules. Spread Spectrum transmitters must comply with RF exposure limits	
	in 15.247.	
	111 15.247.	

Request for Modular Approval FCC ID: 2AJMTWIPY3R.

Thank you for your attention to this matter.

Yours Sincerely,

y 2hn Ivy Zhu, Certification Manager
