Welcome Guide wireless charge ADS009

SCORPION PAD JET

FCC Statement

Charger is not certified for use with any mobile device. The user is responsible for compliance with the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not used and/or not installed in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

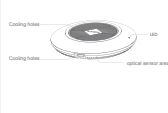

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) If this device does cause interference, the user must stop using the device.

Thank for choosing us!

This is a smart phone wireless charger that allows you enjoy the fun of digital products easily. Please kindly read the user manual before using and keep it for future reference.

Specification

Model: NCL-ADS009
 Input: 5V/2A, 5V/1A, 5V/0.5A
 Size: 105X105X20mm

Watt: 15W
 Charging distance: 8mm
 Wireless Out: 5000-50000
 Frequency: 105-2050KHz

Connect to Adapter

*Note: Phone X, iPhone 8 & iPhone 8 Plus with iOS 11.2 or above can be fast charging up to 7.5W.

*Note: Recommendation to connect USB and adapter with Quick Charge 2.0 is subject to improve the charging efficiency.

*Note: To clear or remove the dust of USB is suggested or use it under room temperature 25.

*Note: Do not cover the cooling hole with foreign matters, so as not to affect the wireless charging effect.

*Note: Do not block the optical sensor area when in use.

Charging Mode

Cooling system

The wireless charging product has a cooling fan and an optical sensor window, which can automatically recognize the brightness of the light used in the environment. When the brightness is very low or completely dark (such as the sleeping environment at night), the wireless charging will be automatically closed. The specific cooling fan is installed in a controllable state. In the dark environment, it will support the cooling fan to increase the speed of wireless charging.

Attention

1. Do not squeeze or collide.
2. Do not disassemble or throw into fire or water to avoid causing a short circuit leakage.
3. Do not use excessive charger to avoid heat, burnt or corrosion environments to avoid circuit damage and causes leakage phenomenon.
4. Do not place too close with magnetic strips or chip card (IC card, bank card, etc.) to avoid magnetic failure.
5. Please keep the distance at least 20cm between implantable medical devices (pacemakers, cochlears, etc.) and the wireless charger to avoid interference with medical devices.
6. To take care of the children to ensure that they don't play the wireless charger as a toy or use it unsafely.
7. Do not store metal parts at the receiving part of the mobile phone to avoid affecting the wireless charging function.

The involved images are sketch maps the final product as per the original subjects.

Warranty card

Thank you for purchasing the iWALK product. Our product warranty period is 12 months starting from the date of purchase within the warranty period the service will be provided. If the product has any quality problem, please contact us with the following information and our staff:

Full contact information will help us repair faster as follows:

- No valid warranty card or warranty card incomplete.
- No QR code to identify with warranty card.
- Abuse caused by external damage (external impact or misusing product (not as used)).
- Abuse of the product user that not follow the instructions in the manual (incorrect disassembly or repair by non-authorized service center).
- Damage caused by storing the product in a hot or humid environment.
- Change or modification due to use of force.
