To Whom It May Concern,

The chip EC25-E installed in our product Sany Encourage Integrated Display (model name:SECD-710B-03(H), FCC ID: 2AJON-SECD710B03H), which supports GPRS, 3G and 4G protocols. But for this product, it only activates WCDMA band V , LTE band 5 and LTE band 41, the other bands are disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely,
