

Pic.1 Conducted emission

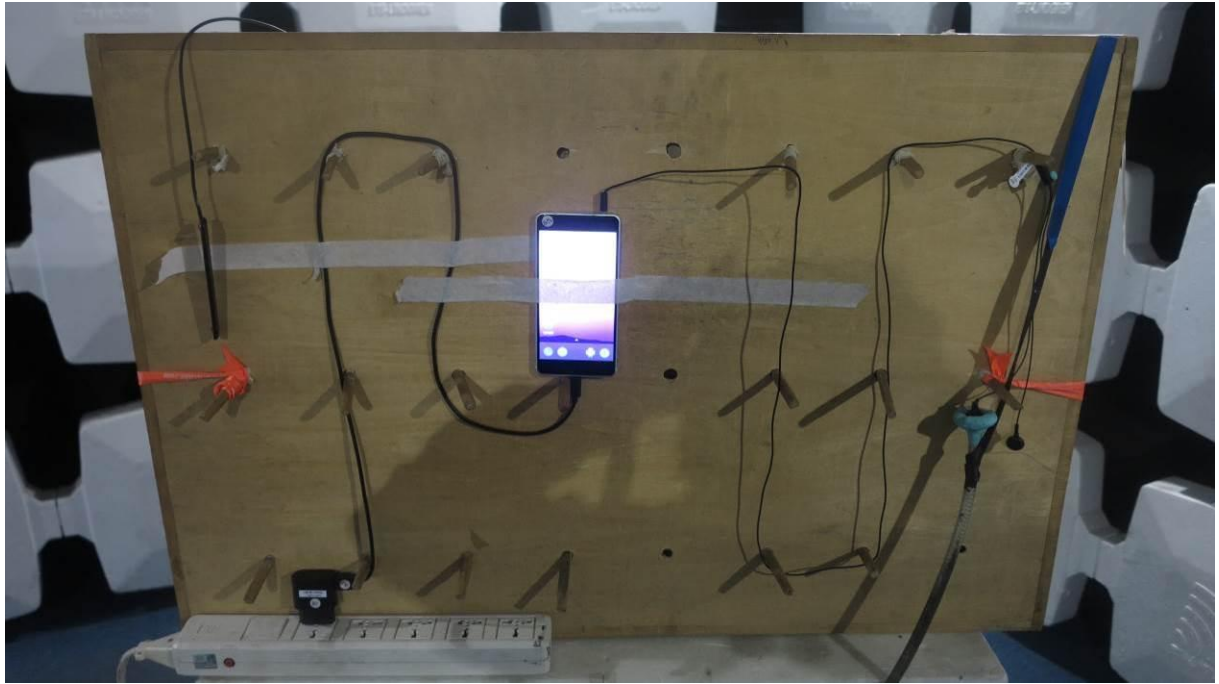

Pic.2 Radiated emission

Pic.3 Radiated emission (FM)

Pic.4 Immunity to electrostatic discharge

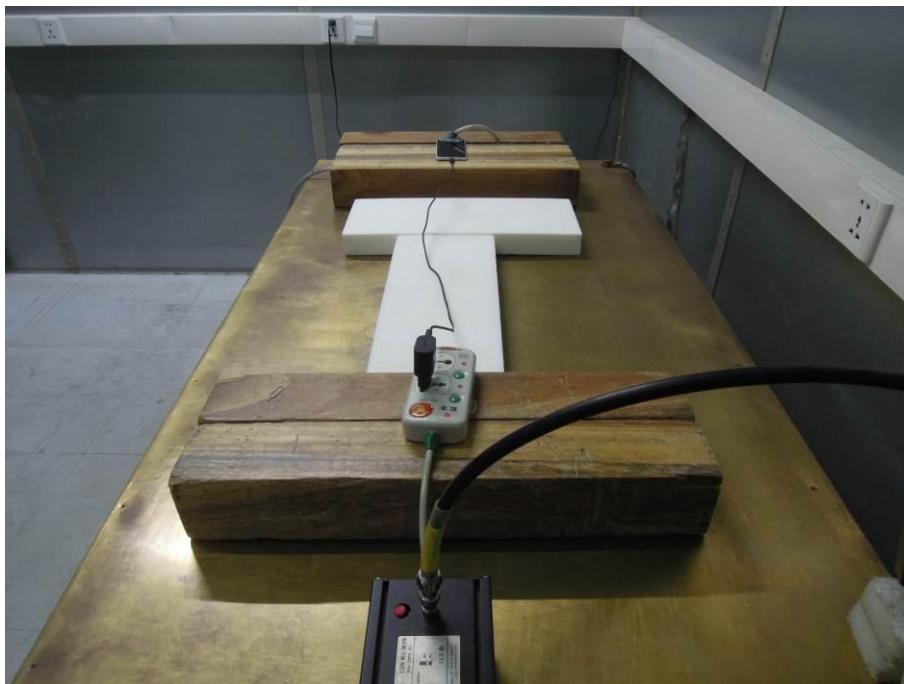

Pic.5 Immunity to Radiated RF Electromagnetic field

Pic.6 Immunity to electric fast transients

Pic.7 Immunity to Surge

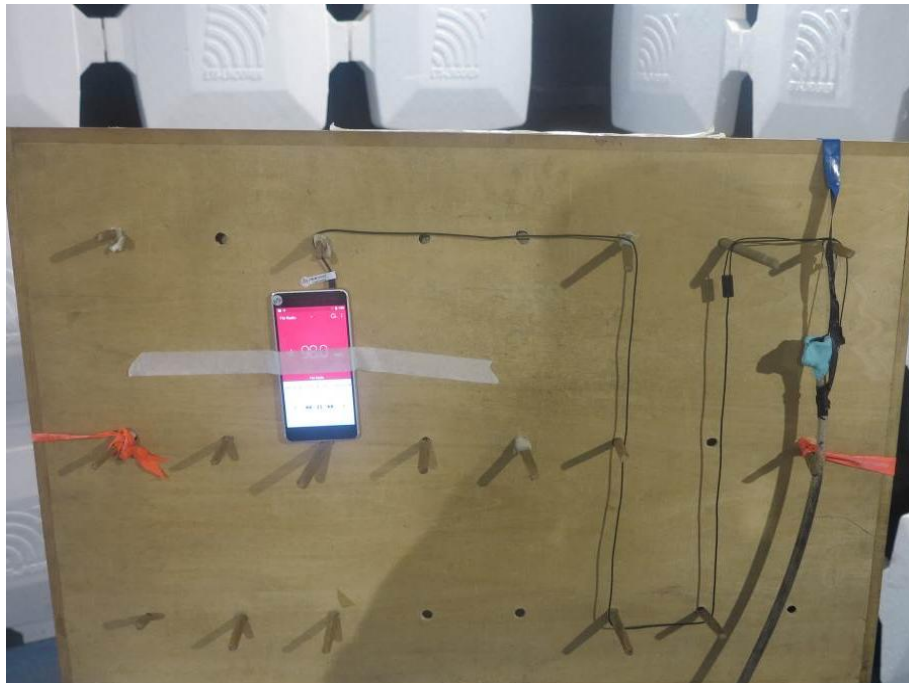

**Pic.8 Immunity to conducted disturbance, induced by radio-frequency fields
(AC Power Port)**

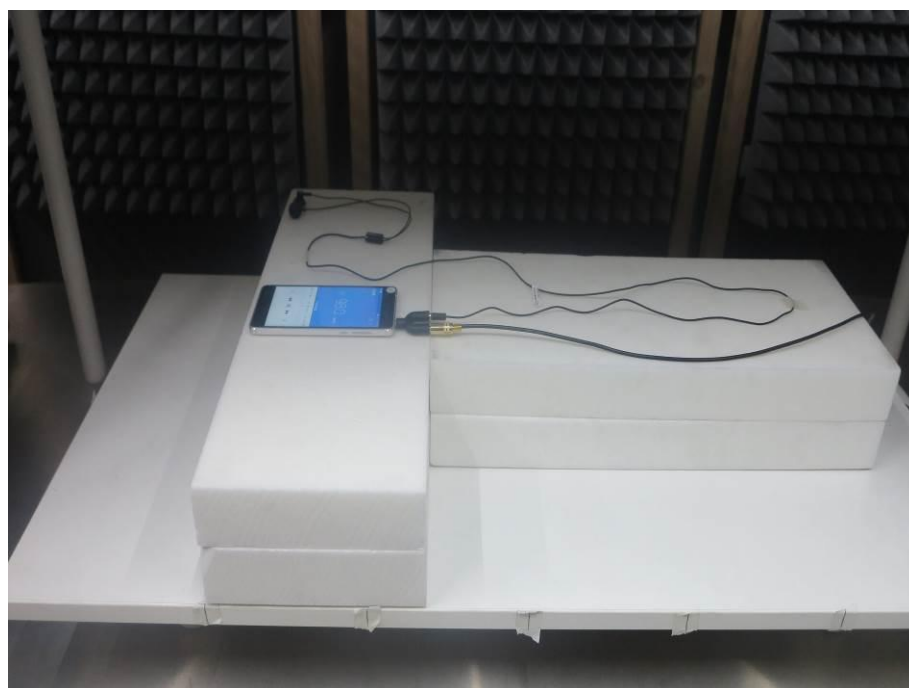

Pic.9 Immunity to voltage dips, short interruptions and variations

Pic.10 Immunity to electrostatic discharge (FM)

Pic.11 Immunity to Radiated RF Electromagnetic field (FM)

Pic.12 Sensitivity & Adjacent channel selectivity and blocking (FM)
