Attestation Letter

FEDERAL COMMUNICATIONS COMMISSION  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

The chip BCM43455 installed in our product DPVR Personal Cinema (model name: DPVR P1, FCC ID: 2AJPQ-P1), which support 5G Wi-Fi Band1(5150-5250MHz), Band2(5250-5350MHz), Band3(5470-5725MHz), Band4(5725-5850MHz). But for the product, it only activates Band1 and Band4, the other bands are disabled by using the software.

For 2.4G Wi-Fi, the chip BCM43455 can support 802.11b/802.11g/802.11n-HT20/802.11n-HT40 functions, But for the product, it only activates 802.11b/802.11g/802.11n-HT20 functions, 802.11n-HT40 is disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely Yours,
