

# Statement and explanations

EDGE PRO(FCC ID for this application is 2AJQ6MCG-14080) is an outdoor camera device with certified modules (module EG91-NAXD (Module FCC ID:XMR202008EG91NAXD,Date of Grant:09/16/2020)) .

The LTE module is installed in the host and has no impact on RF performance. Considering that the antenna was designed for the host, when the module was integrated into the host, we conducted EMC testing on the host and retested RSE in RF. Due to the presence of uncertified BLE modules in the entire machine, we conducted a brand new test on BLE. Please refer to the corresponding laboratory test results.

Standard	Test Plan	Module Reference Report
Part 15B/15C	Full test	NA
Part 22/24/27/90	Only retest RSE and check power	R2006A0379-R1 R2006A0379-R2 R2006A0379-R3 R2006A0379-R4 R2006A0379-R5 R2006A0379-R6
Part 2.1901	Reassessment	NA

The specific specifications supported by the entire machine are as follows  
WCDMA:B2/B4/B5  
LTE:B2/B4/B5/B12/B13/B25/B26  
BT:BLE

Should you have any question or comment regarding this matter , Please have my best attention.  
Sincerely yours
