

Declaration of similarity

iSDR

Status: 09.08.2016

Revision 1

Author: Dr. Matthias Rabel matthias.rabel@indurad.com

To Whom It May Concern:

Please be advised that the indurad iSDR sensors

- iSDR-DN150-E1-C1
- iSDR-DN100-E1-C1
- iSDR-DN080-E1-C1
- iSDR-DN050-E1-C1

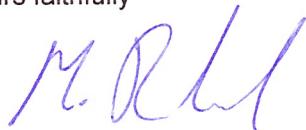

are electrically identical.

The difference between the iSDR models is the antenna, which leads to different beamwidth, antenna gain and EIRP values. Please refer to the CETECOM test results for detailed information.

Fabrication tolerances can lead to small deviations in the measurement results between two identical sensors.

Thank you for your attention to this matter.

Yours faithfully

Dr.-Ing. Matthias Rabel
