

Wireless charger

Model: IWC000A2

USER MANUAL

Product Specification

Input : DC 5V/2.0A, 12V/1.8A

Wireless Output: 5W ,7.5W ,10W Max

Charging efficiency: 65%(minimum transmission efficiency for maximum height and position offset)

Dimensions: 71.5mm x 54mm X 11mm

Frequency Band: 113.60KHz to 178.10KHz

Transmitter Power: 24.26 dBμA/m@10m

Precautions

- a. Limited to charging rechargeable devices, otherwise it may lead to explosion, the battery broken crack or leakage, personal injury or property damage, please do not be exposed to rain or snow.
- b. Please do not break down, or assembly of wireless charger.
- c. Please don't drop it on the ground or place the weight on it.
- d. The charger should be used within 0°C ~35°C temperature.

Correct Disposal of this product

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources.

FCC ID :2AJSP-IWC000A2

PS:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
