### WIRELESS THERMOMETER

**USER MANUAL**

**SAFETY INFORMATION**  
Please read and understand the safety manual before attempting to assemble, use or install the product.

©2015 Sunbeam Brands, Inc.

**FEATURES:**  
Wireless Thermometer  
Built-In LCD Screen  
Transmitter Base  
Rechargeable Battery  
Heat Resistant Probe  
Probe Holder  
Power On/Off  
Auto Shut-Off  
Auto Sleep  
Cooking Timer

**Probe Holder**  
**Probe**  
**Transmitter Base**  
**Probe**

**LED INDICATOR LIGHT**  
The red LED light on the bottom of the transmitter base flashes **BLUE** to indicate that a temperature reading is being generated.

**BATTERY INSTALLATION**  
**WIRELESS THERMOMETER**

1. Remove the battery cover on the back of the wireless thermometer.
2. Insert 2 AAA 1.5V batteries as indicated by the polarity printed on the battery cover. Do not reverse the order of the batteries.

**TRANSMITTER BASE**

1. Remove the battery cover on the bottom of the transmitter base.
2. Insert 2 AAA 1.5V batteries as indicated by the polarity printed on the battery cover. Do not reverse the order of the batteries.

**OPERATING INSTRUCTIONS**

1. **CONNECTING THE PROBE**  
Clean the probe based on the type of the food that you are cooking. Refer to the manual for Fig. 1.
2. **POWER RECEPTION**  
Press the power button on the transmitter base. The LCD screen will display the temperature of the probe. Do not reverse the order of the batteries.
3. **POWERING ON**  
Press the power button on the transmitter base. The LCD screen will display the temperature of the probe. Do not reverse the order of the batteries.

Back

**4. SELECT HEAT TYPE**  
Press "HEAT" button to toggle and select the desired heat type. Press the LCD screen with a clean finger to the display to the following options (see Fig. 2):

**4. MANUALLY SET TARGET TEMPERATURE**  
Press and hold the "MODE" button to manually set the target temperature. Press the LCD screen with a clean finger to the display to the following options (see Fig. 3):

**5. SELECT TARGET LEVEL**  
Press "TARGET" button to select the desired level. Press the LCD screen with a clean finger to the display to the following options (see Fig. 4):

**5. BAKE/BROIL**  
Press the "BAKE/BROIL" button to select the desired mode. Press the LCD screen with a clean finger to the display to the following options (see Fig. 5):

**6. SET COOKING TIME**  
Press the "COOKING TIME" button to set the cooking time. Press the LCD screen with a clean finger to the display to the following options (see Fig. 6):

**7. COUNTDOWN/TIMER DOWN**  
Press the "COUNTDOWN/TIMER DOWN" button to stop the cooking timer. Press the LCD screen with a clean finger to the display to the following options (see Fig. 7):

**8. SET TEMPERATURE**  
Press the "TEMPERATURE" button to set the temperature. Press the LCD screen with a clean finger to the display to the following options (see Fig. 8):

**9. SET TARGET LEVEL**  
Press the "TARGET" button to select the desired level. Press the LCD screen with a clean finger to the display to the following options (see Fig. 9):

**10. SET COOKING TIME**  
Press the "COOKING TIME" button to set the cooking time. Press the LCD screen with a clean finger to the display to the following options (see Fig. 10):

**11. SET TEMPERATURE**  
Press the "TEMPERATURE" button to set the temperature. Press the LCD screen with a clean finger to the display to the following options (see Fig. 11):

**12. SET TARGET LEVEL**  
Press the "TARGET" button to select the desired level. Press the LCD screen with a clean finger to the display to the following options (see Fig. 12):

**13. SET COOKING TIME**  
Press the "COOKING TIME" button to set the cooking time. Press the LCD screen with a clean finger to the display to the following options (see Fig. 13):

**14. SET TEMPERATURE**  
Press the "TEMPERATURE" button to set the temperature. Press the LCD screen with a clean finger to the display to the following options (see Fig. 14):

**15. SET TARGET LEVEL**  
Press the "TARGET" button to select the desired level. Press the LCD screen with a clean finger to the display to the following options (see Fig. 15):

**16. SET COOKING TIME**  
Press the "COOKING TIME" button to set the cooking time. Press the LCD screen with a clean finger to the display to the following options (see Fig. 16):

**17. SET TEMPERATURE**  
Press the "TEMPERATURE" button to set the temperature. Press the LCD screen with a clean finger to the display to the following options (see Fig. 17):

**18. SET TARGET LEVEL**  
Press the "TARGET" button to select the desired level. Press the LCD screen with a clean finger to the display to the following options (see Fig. 18):

**19. SET COOKING TIME**  
Press the "COOKING TIME" button to set the cooking time. Press the LCD screen with a clean finger to the display to the following options (see Fig. 19):

**20. SET TEMPERATURE**  
Press the "TEMPERATURE" button to set the temperature. Press the LCD screen with a clean finger to the display to the following options (see Fig. 20):

**21. SET TARGET LEVEL**  
Press the "TARGET" button to select the desired level. Press the LCD screen with a clean finger to the display to the following options (see Fig. 21):

**22. SET COOKING TIME**  
Press the "COOKING TIME" button to set the cooking time. Press the LCD screen with a clean finger to the display to the following options (see Fig. 22):

**23. SET TEMPERATURE**  
Press the "TEMPERATURE" button to set the temperature. Press the LCD screen with a clean finger to the display to the following options (see Fig. 23):

**FCC Caution:**

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
