

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****Solder
Board-Component View
1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The board is rectangular with rounded corners and features a large, square, silver-colored component in the center, which is a neoway K75-NA 011AS1. The board is populated with various electronic components, including resistors, capacitors, and integrated circuits. A white connector is visible on the right side. The board is placed on a blue textured surface, and a black ruler with white markings is positioned vertically to the left of the board for scale.
Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 3'. The board is rectangular with rounded corners and features a large, square, silver-colored component in the center, which is a neoway K75-NA 011AS1. The board is populated with various electronic components, including resistors, capacitors, and integrated circuits. A white connector is visible on the right side. The board is placed on a blue textured surface, and a black ruler with white markings is positioned vertically to the left of the board for scale.

Solder Board-Component View 4	 A photograph showing a green printed circuit board (PCB) with various electronic components, including a large black integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The board is oriented vertically, and the ruler is placed horizontally next to it.
Solder Board-Component View 5	 A photograph showing a small, square black printed circuit board (PCB) with various electronic components, including a large black integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The board is oriented vertically, and the ruler is placed horizontally next to it.
