Re: FCC ID: 2AJX7KP9000D

To Whom It May Concern:

The following application is submitted on behalf of our client, QSR Automations, Inc., for evaluation of their model KP-9000D for certification under FCC Part 15.247.

The KP-9000D is a USB to Bluetooth Low Energy gateway operating in the frequency range 2402-2480MHz allowing Bluetooth Low Energy devices to connect to a USB Host.

The KP-9000D was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'.
