

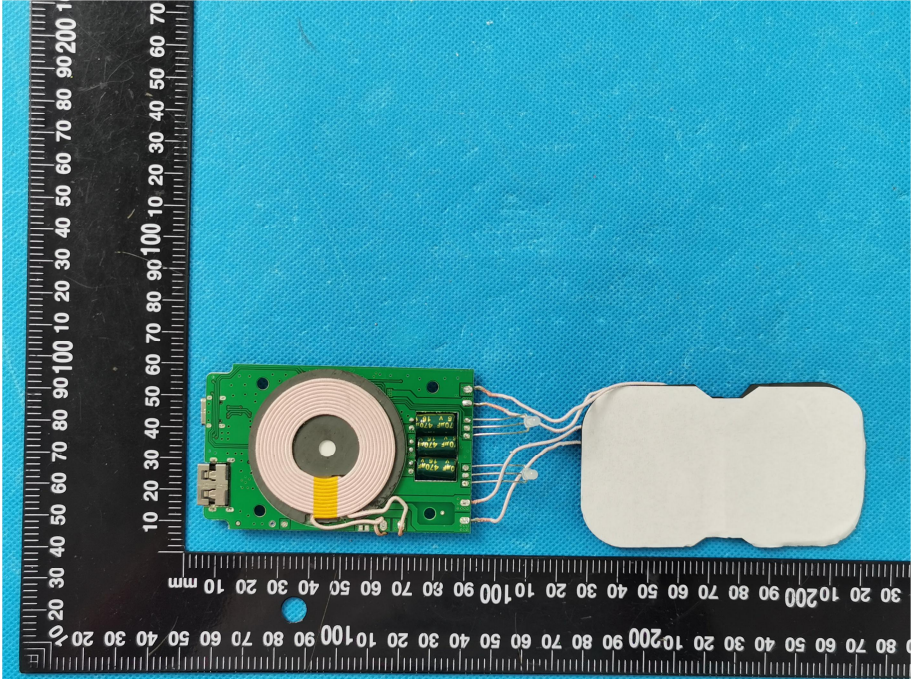

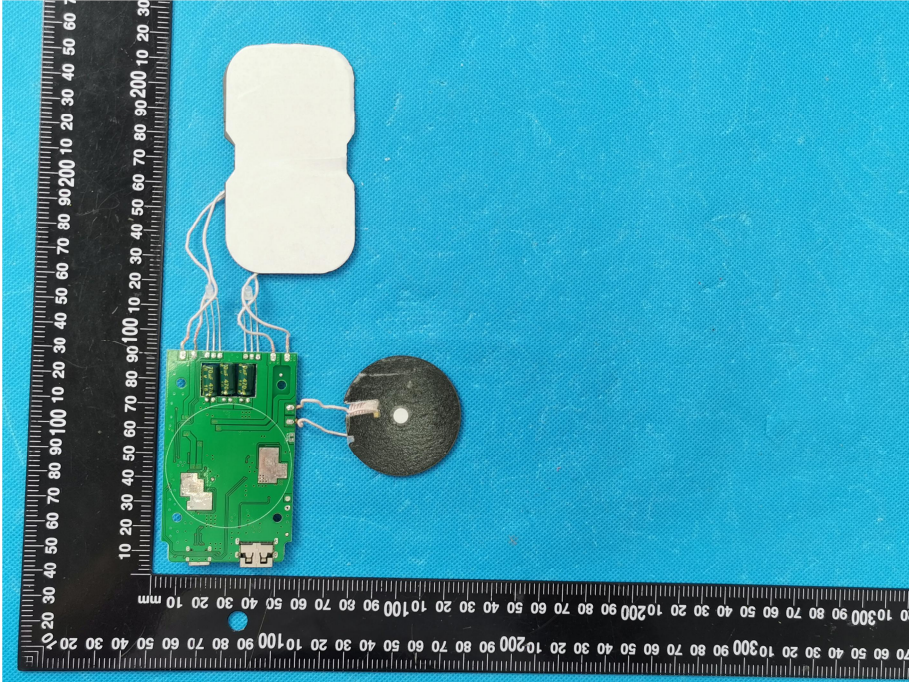

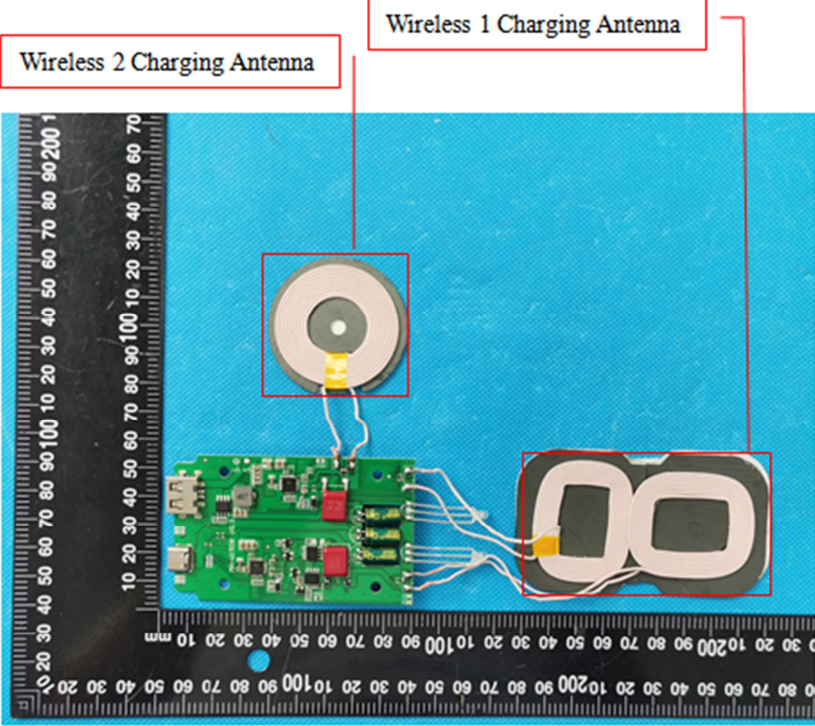

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>A photograph showing the internal components of an EUT (End User Terminal) housing. The housing is a dark red plastic frame. Inside, a green printed circuit board (PCB) is visible, featuring a large white circular component, likely a speaker or microphone, and various electronic components. A black ruler is placed vertically to the left of the housing for scale, showing measurements in millimeters. The background is a blue textured surface.</p>
<p><b>Solder Board-Component View 1</b></p>	 <p>A photograph showing a close-up view of the solder board component. The component is a green PCB with a large white circular component, similar to the one in the previous view. It is connected to a white flexible printed circuit (FPC) strip. A black ruler is placed vertically to the left of the component for scale, showing measurements in millimeters. The background is a blue textured surface.</p>

<p style="text-align: center;"><b>Solder Board-Component View</b> 4</p>	 <p>A photograph showing a green printed circuit board (PCB) with various electronic components. A white, rectangular antenna component is connected to the board via thin wires. A black circular component is also connected to the board. The entire assembly is placed on a blue background with a black ruler for scale.</p>
<p style="text-align: center;"><b>Antenna View</b></p>	 <p>A photograph showing the antenna components from the previous view. A circular antenna is labeled "Wireless 1 Charging Antenna" and a rectangular antenna is labeled "Wireless 2 Charging Antenna". Both are connected to the PCB via thin wires. The assembly is placed on a blue background with a black ruler for scale.</p>
