OPERATING INSTRUCTIONS

Charging the battery

Gently pull out the port cover (4) on the back of the speaker and rotate it open. Plug the Micro USB end of the provided charging cable into the Micro USB port (6) under the port cover (4) on the back of the Speaker. Plug the other end into a compatible 5V wall charger or USB port. The Charging Indicator Light (5) will turn on to indicate a successful connection, and turn off when fully charged.

Wireless pairing

Once turned on the speaker will automatically enter Wireless pairing mode. Open the Wireless menu on your smartphone or other wireless device and look for "FunAmp" from the list of pairable devices. Once paired with a device it will automatically connect next time it is turned on and the device is in Wireless mode.

USING YOUR SPEAKER

Gently pull out the port cover (4) on the back of the speaker and rotate it open. Flip the Power Switch (7) underneath to the "ON" or "OFF" position.

Charging

Working Time: 3-4 Hours
Charging Time: 2-3 Hours (via Micro Cable)

LED LIGHT INDICATOR

Pairing Mode: Flashing **Blue** Indicator
Playing Music: Slow flashing **Blue** Indicator
Charging via Micro Cable: **Red** LED Light Indicator
Fully Charged: No LED Light Indicator (Light Off)

SPECIFICATIONS

Product: Wireless Speaker	Battery capacity: 500mAh Lithium
Wireless Version: V5.3	Play time: 3-4H
Working range: 10m	Charging time: 2-3H
Impedance: 4Ω	Battery Type: 14500
Maximum input power: 5W	Charging Port Type: Micro

REGULATORY NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be located or operated in conjunction with any other antenna or transmitter.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
