

# V5 Wireless Earbuds

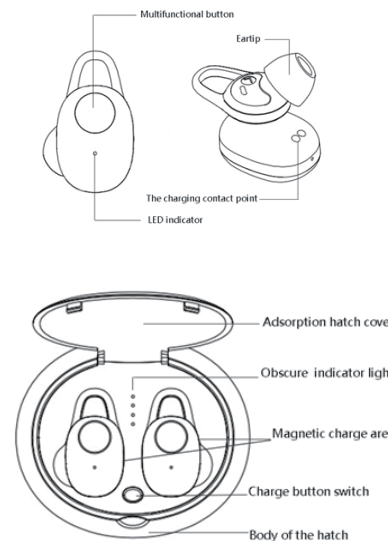

## User Manual

TWS-V5 Wireless Earbuds is a type of modern Bluetooth earphones with new-design and advanced technology. It allows true wireless connection between left and right ears, just a click, you can easily enjoy your music with nothing—not even a single wire at any time.

TWS-V5 Wireless Earbuds adopt advanced technology, such as wireless stereo, Mini in-ear design and storage and charging box. You can charge your earbuds easily just put them in the storage box. In addition, the left earbud and right earbud can be connected wirelessly as a stereo earphone, and they can also be used separately for two people at the same time, which means you can share the music with your friends or your family.

### How to Pair:

#### Step 1: Pairing the left earbud and the right earbud

At the first time using the earbuds, please press the two earbuds button at the same time about 6s until the led indicator flashes red and blue alternatively (voice: Power on-wait connection), and you can choose one earbud as a main control button, for example, choose the Right earbud as the main control button. Now press twice on the Right earbud button (chosen main button). About 5s, the left earbud's indicator light disappears, only the right earbud's indicator flash red and blue alternatively. This is a process of pairing the left earbud and the right earbud.

3

#### Step 2: Pairing the earbuds and your phone

Turn on Bluetooth function on your device, search "TWS-V5" and click it, they will automatically connect to your Bluetooth device, then the right earbud's indicator light disappears. Connect successful, now you can enjoy your music.

#### How to turn off the earbuds:

If you want to turn off the earbuds, it is easy to operate, just press either the Left earbud or the Right earbud button about 5s until you see the indicator flashes red, then both earbuds are turned off.

#### How to turn on the earbuds again automatically

Now want to turn on the two earbuds again? Just press the two earbuds button at the same time about 2s until you see the indicator flashes blue, then both earbuds are turned on and they will be connected to your device automatically. Now open the music, you can share attractive music with TWS-V5 Bluetooth earbuds.

4

#### Note:

- 1.The pairing of left and right earbuds and the pairing of earbuds and your device only need to be done once. Then the next time they can be connected automatically after turning on.
- 2.Please keep in mind, once paired, the two earbuds should be turn on at the same time, then the automatically connection will be supported.
- 3.Please charge the headphone and charging case fully when first use.

#### Headset Charging:

- 1.Put the left and right headset charging contact point to the according elastic pin contact point of the recharge stand and connect.
- 2.The headset indicator light is bright red when charging.
- 3.The headset indicator is bright blue when finished charging.
