**External Radio Frequency
Power Amplifier ACOM 700S**

Model 700S

FCC ID and Label Location Information

In compliance with FCC Regulation 47 CFR Ch. 1 part 2.925, the ACOM 700S, External Radio Frequency Power Amplifier, Model 700S bears a label located on the rear plate of the equipment which displays the following FCC Identifier:

Part (a)

1. The term *FCC ID* followed by the five character Grantee Code and the four character Equipment Product Code.
2. Not applicable.
3. Not applicable.

Part (b) Not applicable

Part (c) Reserved

Part (d)

1. The ACOM 700S label is indelibly printed on the rear panel of the equipment. This label will last the lifetime of the equipment in the environment in which the equipment will be operated and is not readily detachable.
2. The ACOM 700S label is readily visible on the outside of the equipment enclosure.

Part (e) Not applicable.

Part (f)

1. The size of the label is 3.5 by 1.2 inches.

The label and its location on the equipment are shown in the following pictures.

Fig.1 Label location

Fig.2 The label

The Serial Number consists of 6 digits, where the first two digits represent the year of manufacture.

In the FCC ID: 2AJXZ700S Grantee Code is 2AJXZ and the 700S portion is the equipment product code.
